STI-Sync User Guide

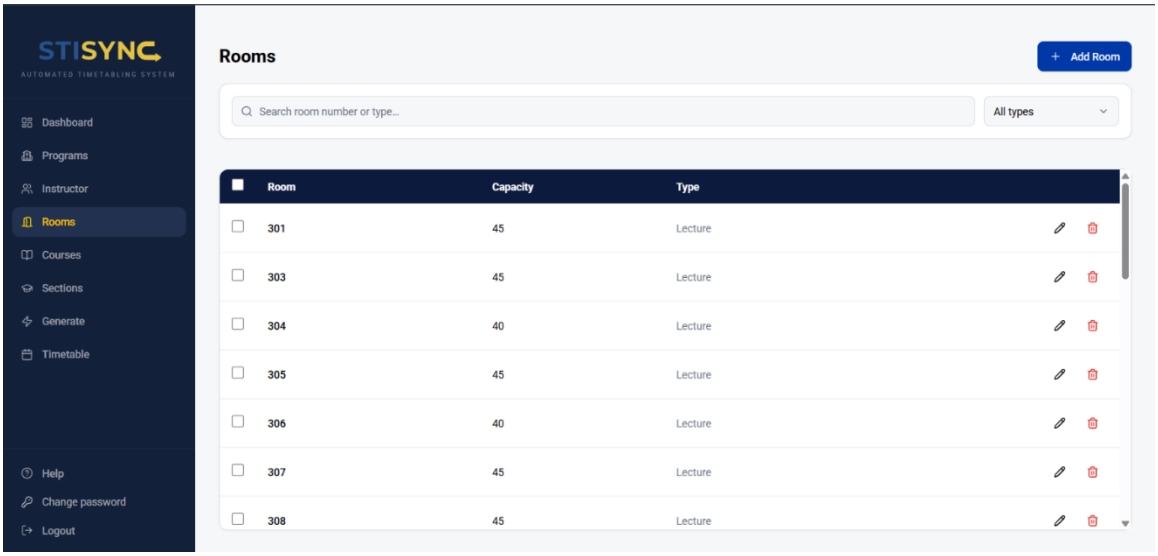

Automated class scheduling for STI College Malolos.

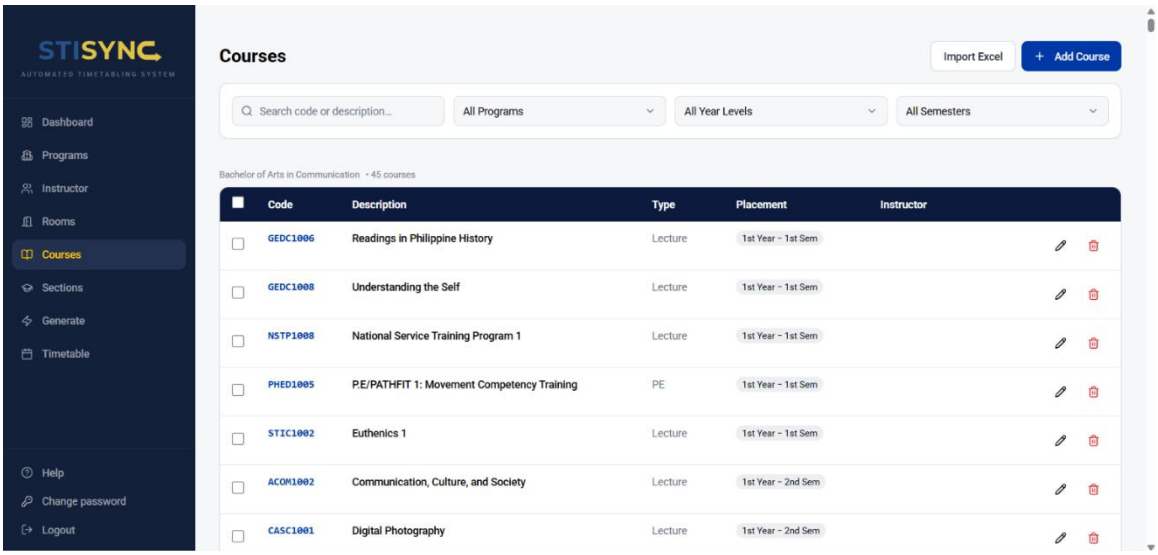

1. Before You Start

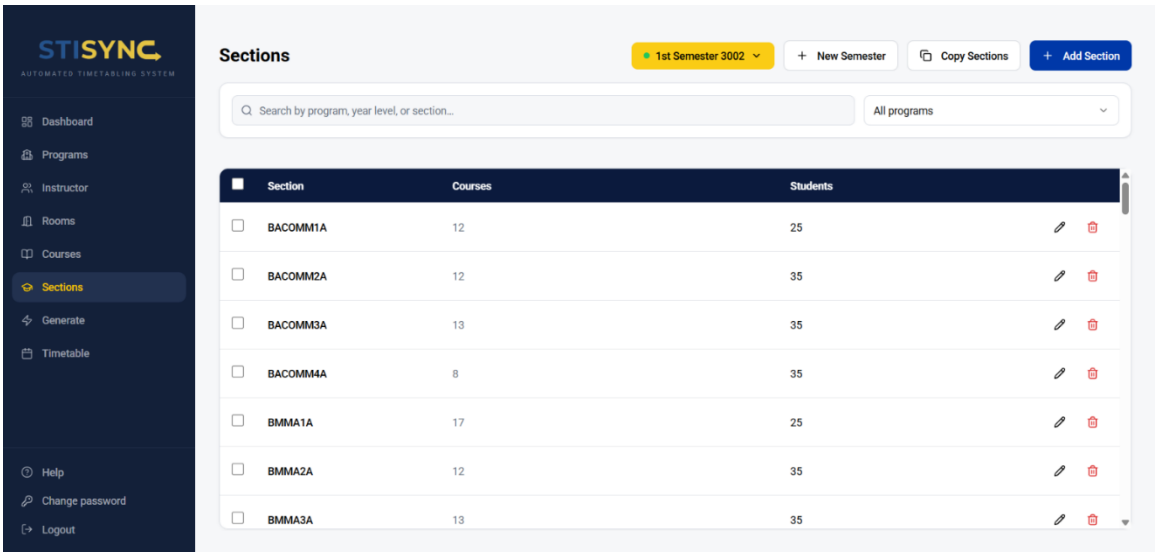

Before generating a schedule, the following must exist: Programs, Instructor (with availability), Rooms, Courses (with curriculum placements), an Active Semester, and Sections.

2. Logging In

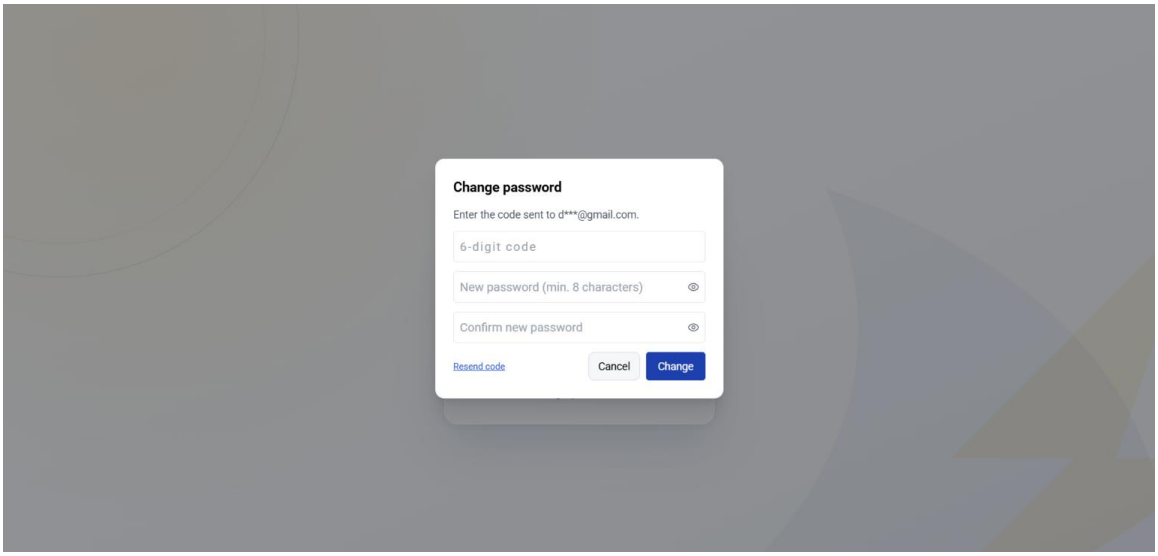

1. Open the app. You are taken to the login page.
2. Type the admin password and click the yellow arrow.
3. Use the eye icon to show or hide the password.

Forgot password

1. Click Forgot **password**.
2. Click **Send code**. A 6-digit code is emailed to the admin address.
3. Enter the code and the new password twice (minimum 8 characters), then confirm.

The code is valid for 10 minutes. Requests are limited to one per minute.

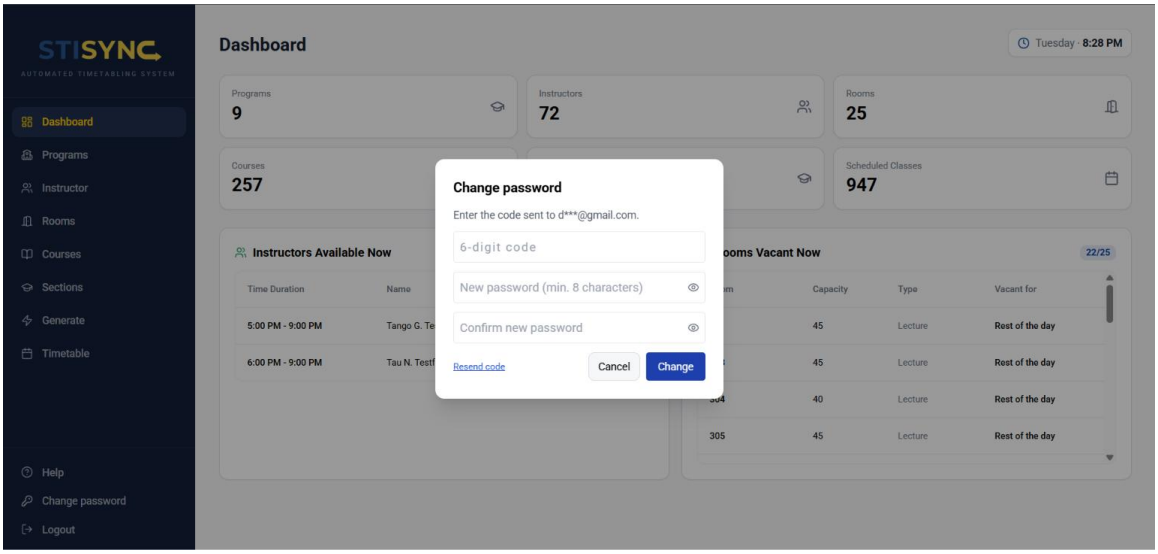

Changing the password

1. Click **Change password** in the sidebar.

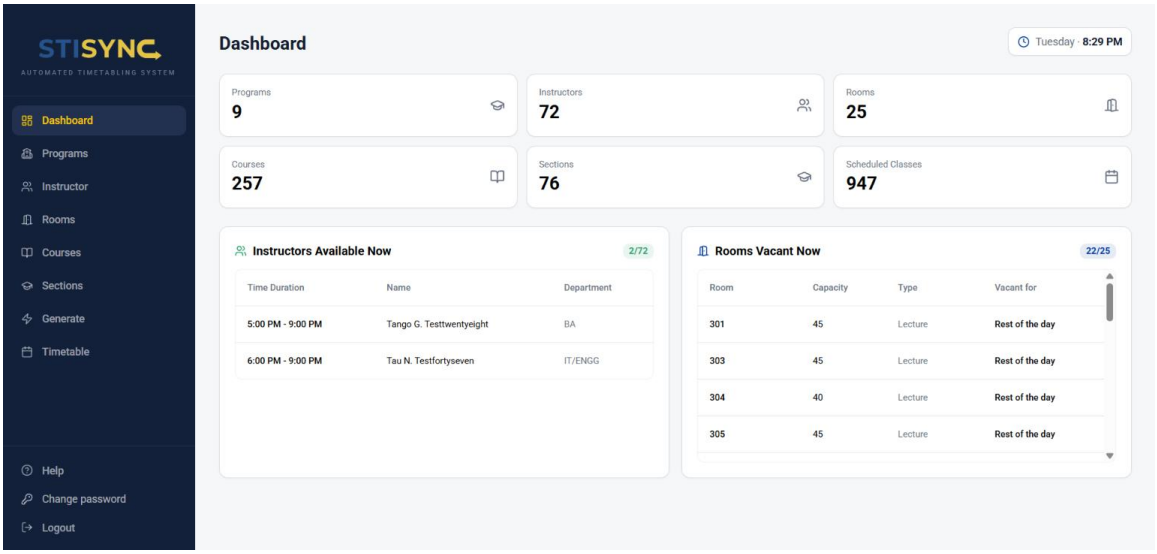

2. Click **Send code**. A 6-digit code is emailed to the admin address.
3. Enter the code and the new password twice (minimum 8 characters), then confirm.

The code is valid for 10 minutes. Requests are limited to one per minute.

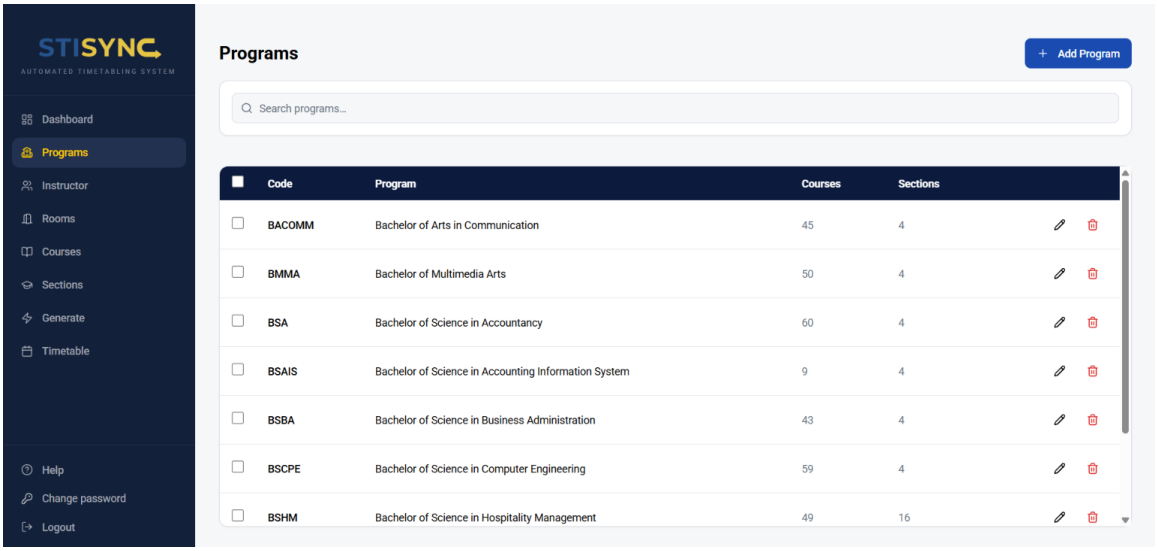

3. Dashboard

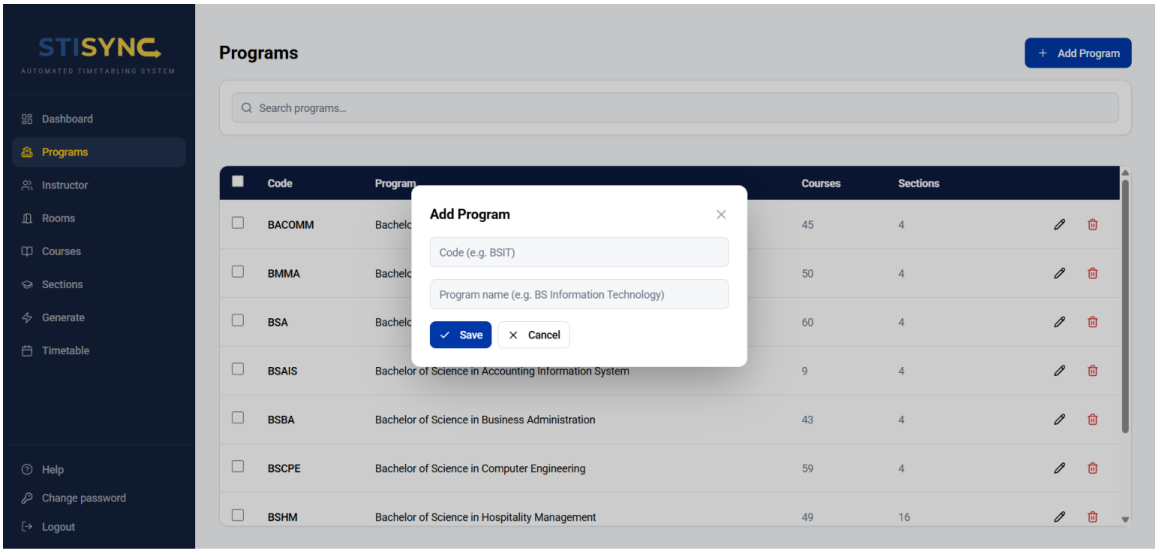

Shows summary counts (rooms, professors, programs, courses, sections, classes) for the active semester.

4. Programs

Programs (e.g. BSIT, BSCpE) group courses and sections. Each program can have a preferred home lab.

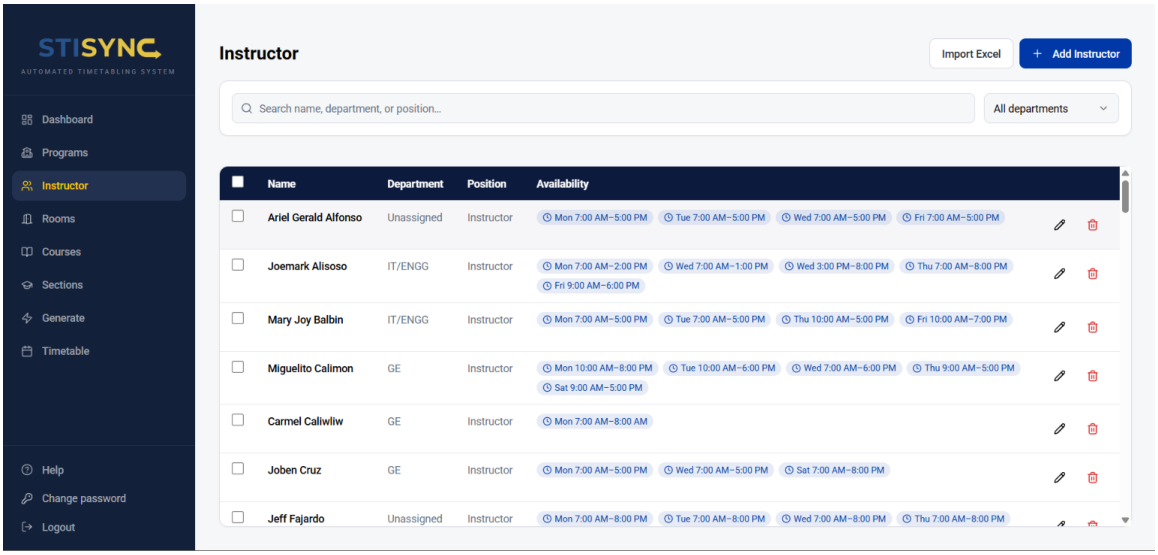

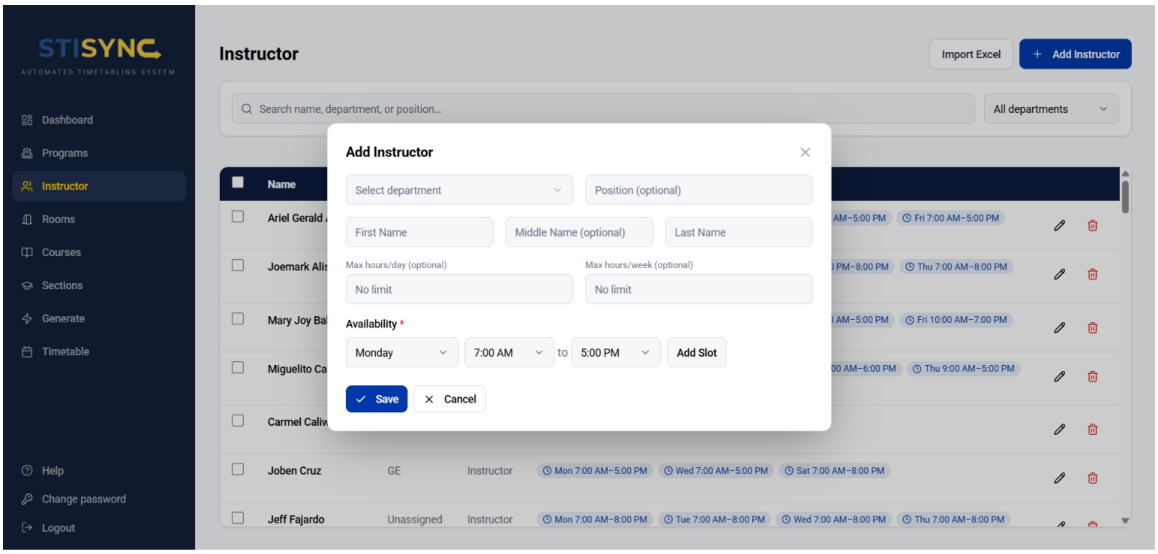

5. Professors

Each professor has a department, weekly availability, and optional hour limits.

- **Add a professor:** name, department (dropdown), max hours per day and per week.
- **Availability:** add a time slot per day (7 AM – 8 PM). End time must be after start time, one slot per day.

- **Import from Excel:** use the Import button and choose your `.xlsx` file. Rows with errors are reported so you can fix and re-upload.

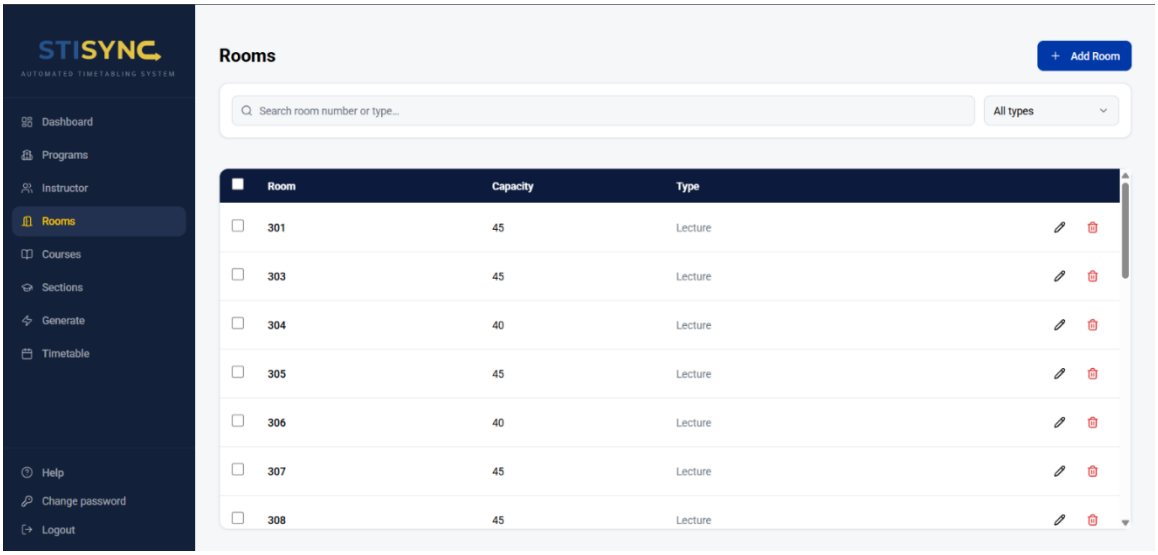

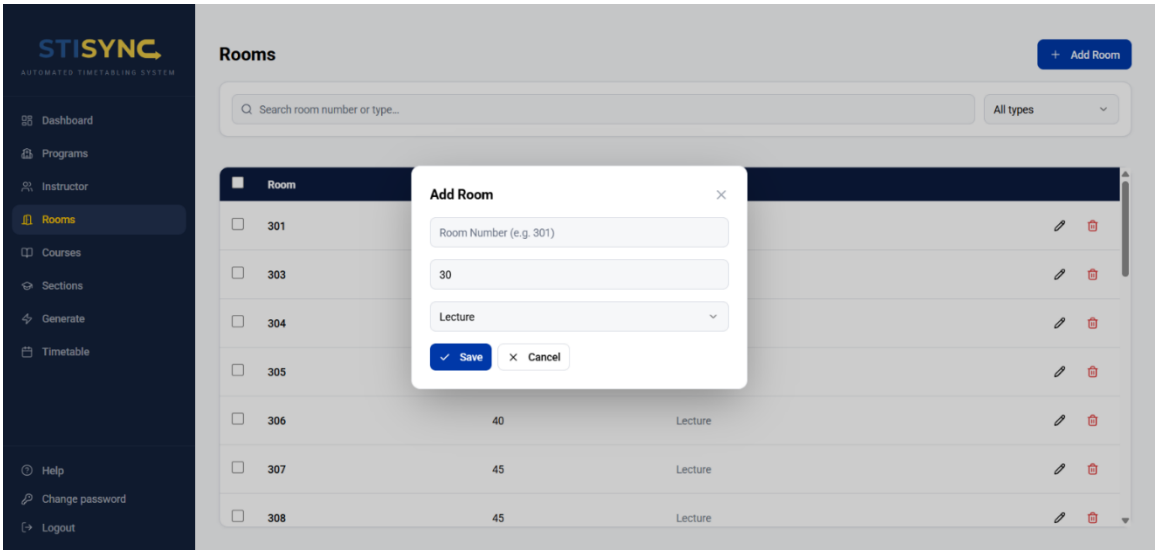

6. Rooms

Rooms are the places classes are held. Each room has a name, type (Lecture, Laboratory, PE) and capacity.

- **Add:** click Add Room, fill in the form, Save.
- **Edit / Delete:** use the buttons on the room card. Bulk delete is available with the checkboxes.
- Laboratory courses are only placed in Laboratory rooms; PE courses prefer Gym rooms.

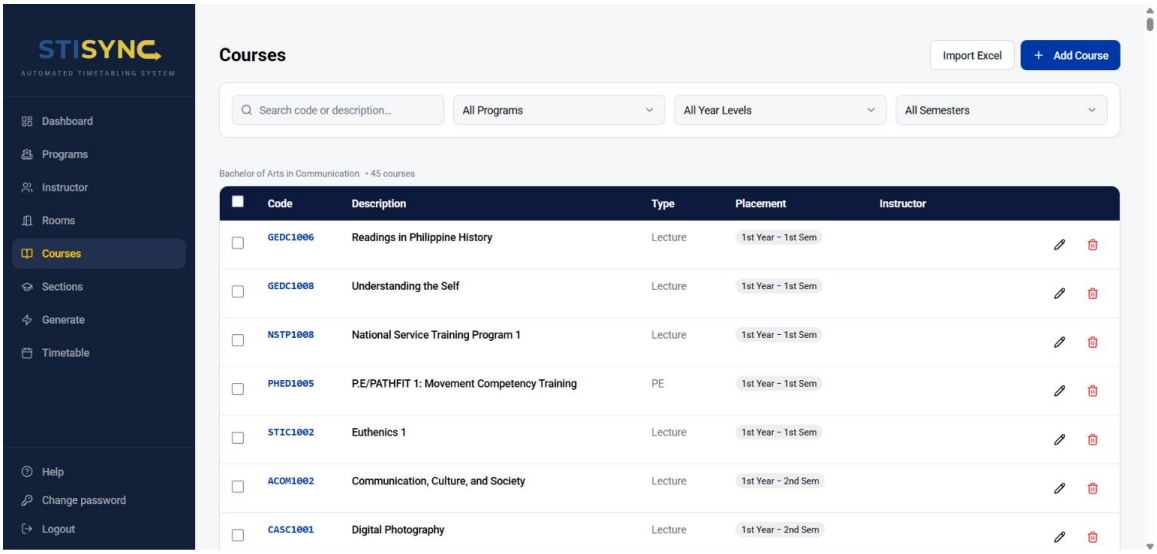

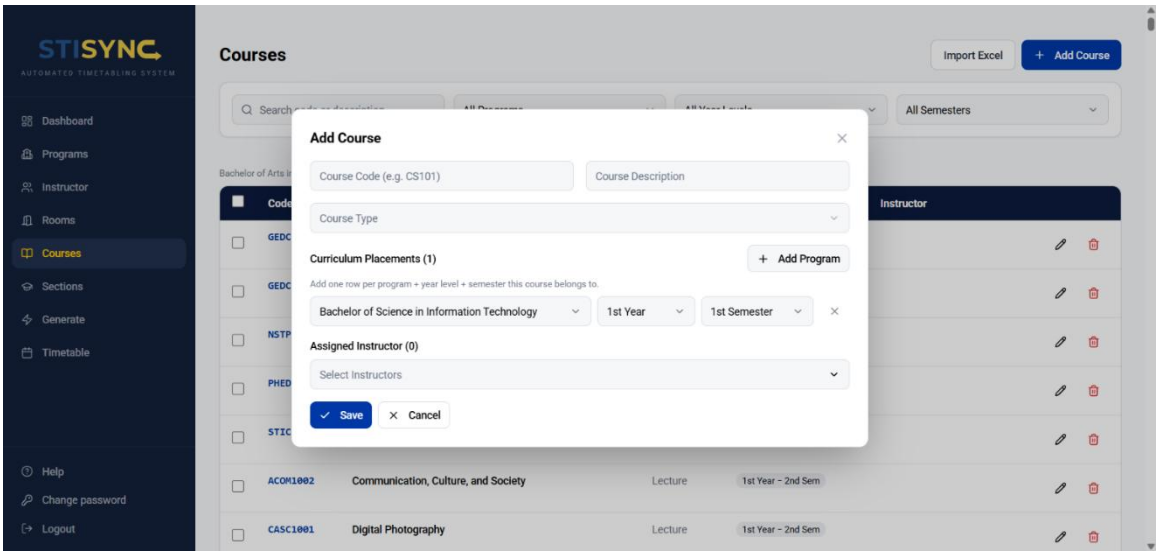

7. Courses

Courses are grouped by program. Each course has:

- Course code, name, type (Lecture, Laboratory, PE) and hours
- **Curriculum placements:** program, year level and semester term
- **Assigned professors:** one or more; the scheduler picks one when generating
- Major/Minor classification (set automatically from hours, editable)
- **Import from Excel:** use the Import button and choose your `.xlsx` file. Rows with errors are reported so you can fix and re-upload.

8. Semesters and Sections

Each semester owns its own sections. Only the **active** semester's sections, classes and timetable are shown.

Create a semester

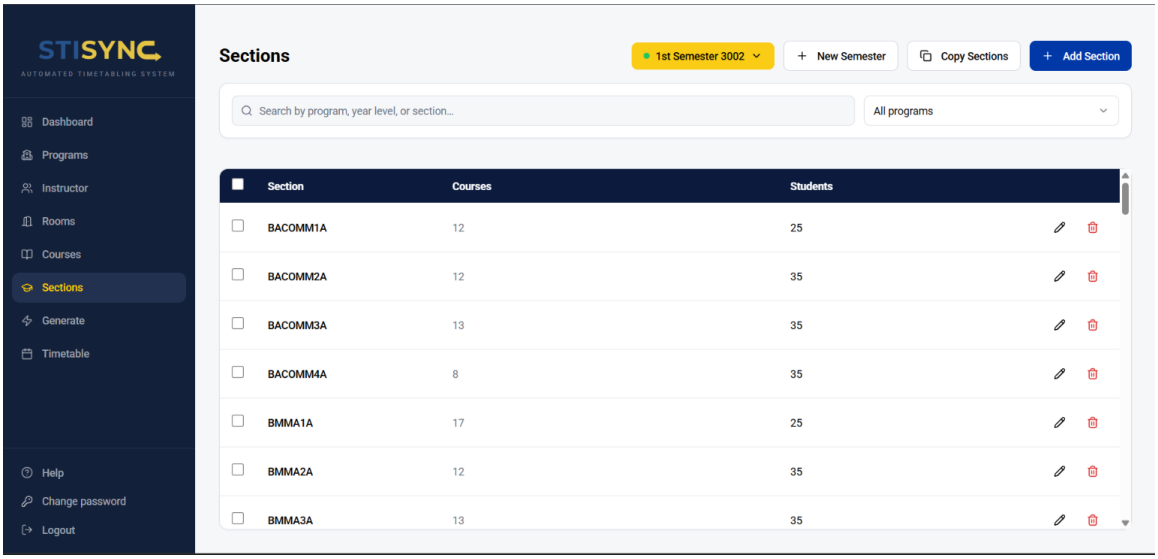

1. On the Sections page click **New Semester**.
2. Enter academic year, term (1st or 2nd Semester), start and end dates.
3. Save. The new semester starts as archived.

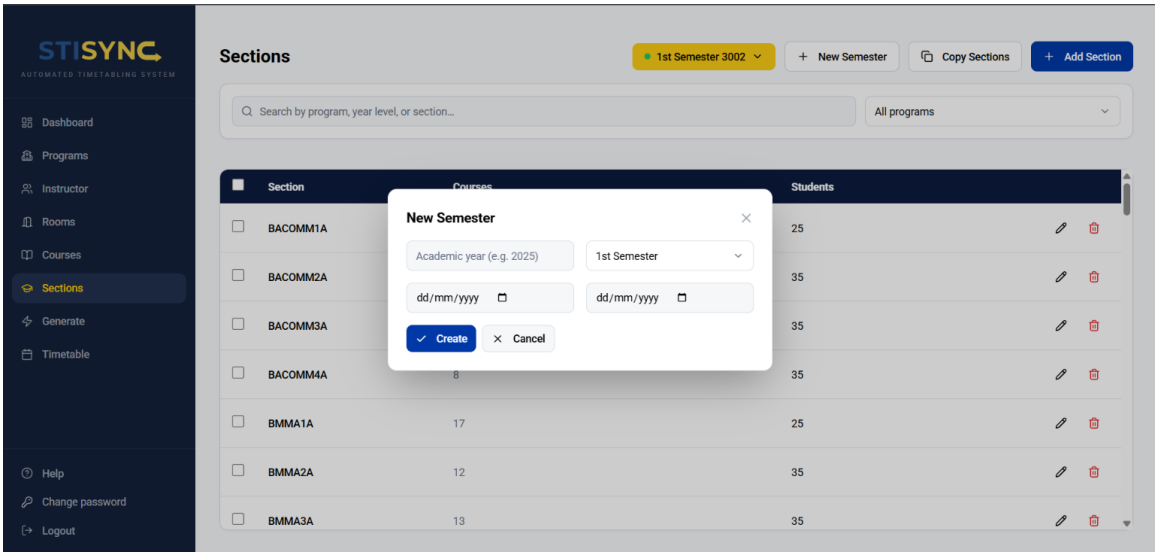

Switch semester

Use the yellow semester dropdown (top right). The active semester is highlighted.

Add sections

1. Click **Add Section**.
2. Choose program, year level, section letter and number of students (1–100).
3. Save. The card shows how many courses the section has. If it says **No courses for this year yet** (red), Generate will skip it. Add curriculum placements first.

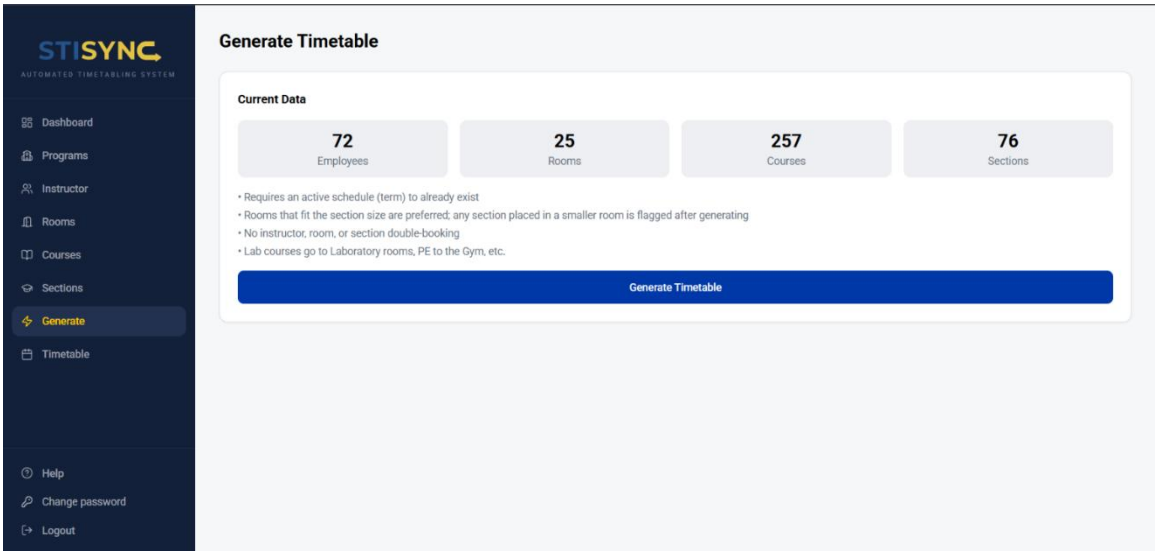

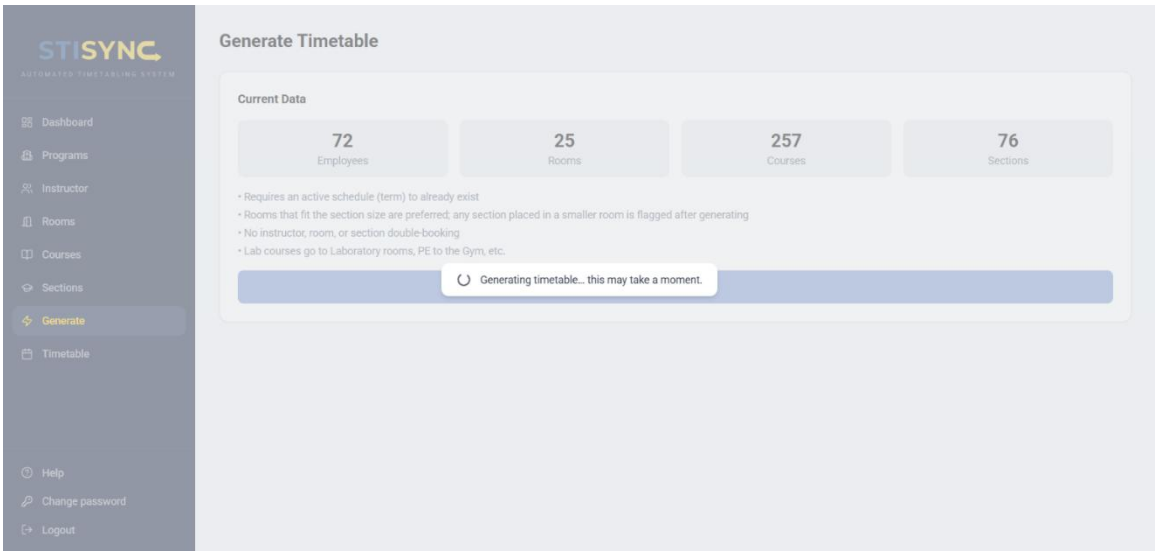

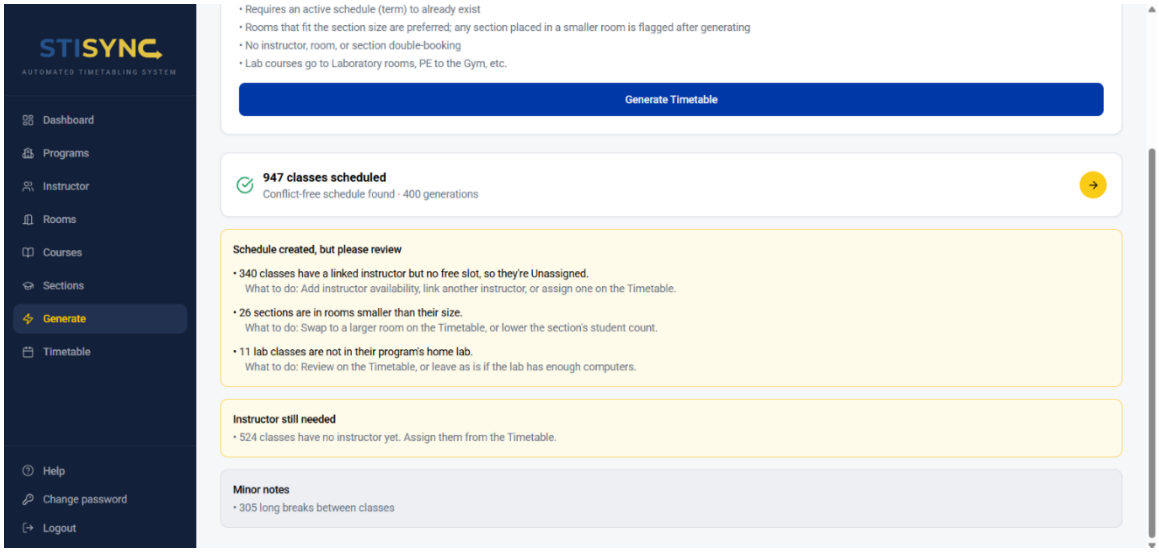

9. Generating a Schedule

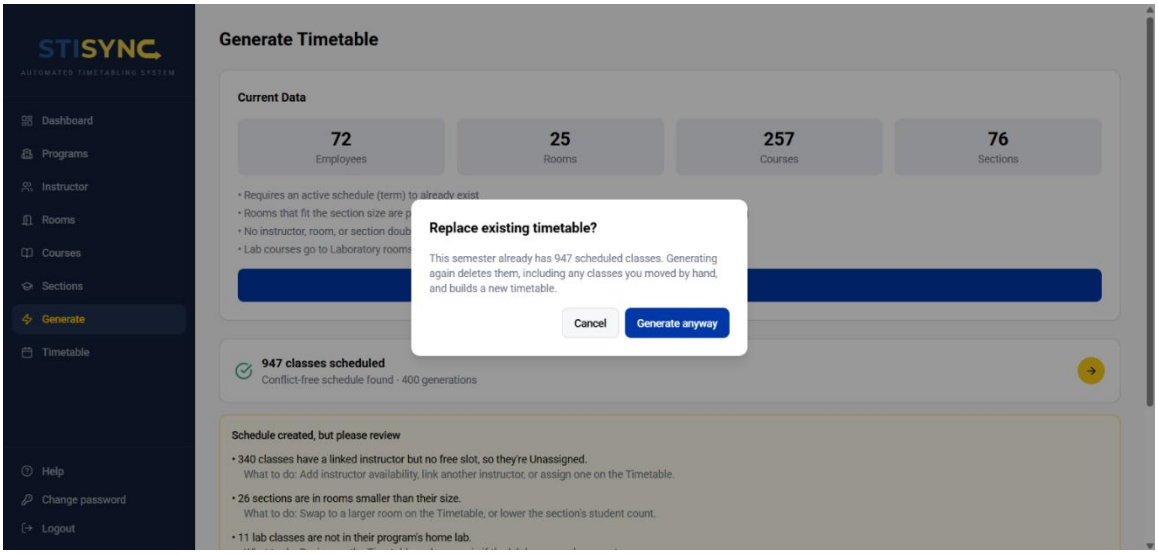

1. Go to **Generate**.
2. Click the generate button and wait. Large datasets can take a couple of minutes.
3. When finished, the result is saved and appears in the Timetable.

Generating again replaces only the active semester's classes. If the scheduler cannot find a conflict-free arrangement, an error explains why.

Generate Timetable
947 classes scheduled
Conflict-free schedule found · 400 generations
Schedule created, but please review
• 340 classes have a linked instructor but no free slot, so they're Unassigned.
What to do: Add instructor availability, link another instructor, or assign one on the Timetable.
• 26 sections are in rooms smaller than their size.
What to do: Swap to a larger room on the Timetable, or lower the section's student count.
• 11 lab classes are not in their program's home lab.
What to do: Review on the Timetable, or leave as is if the lab has enough computers.
Instructor still needed
• 524 classes have no instructor yet. Assign them from the Timetable.
Minor notes
• 305 long breaks between classes

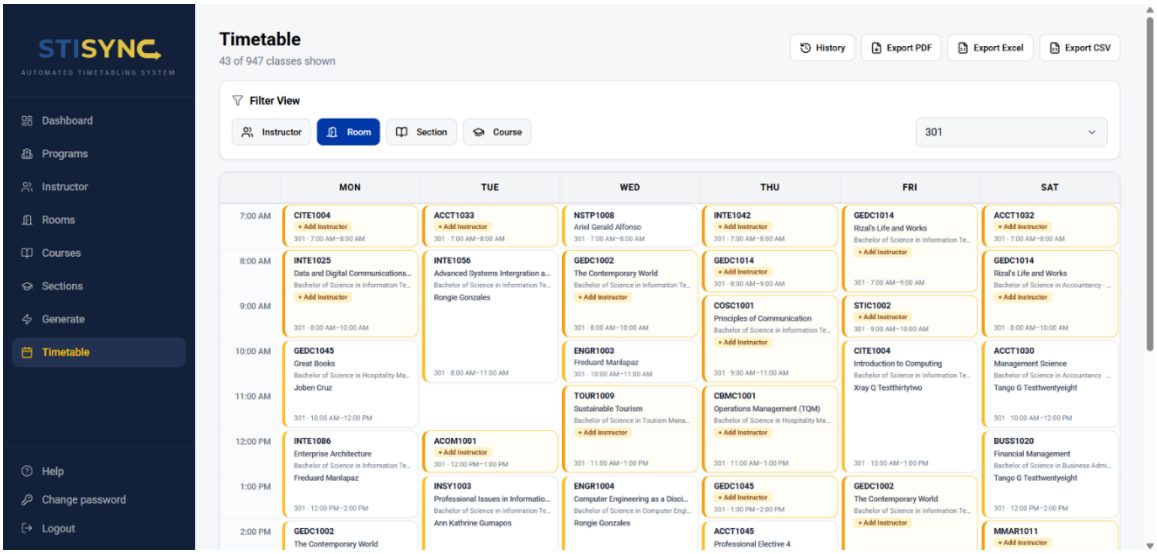

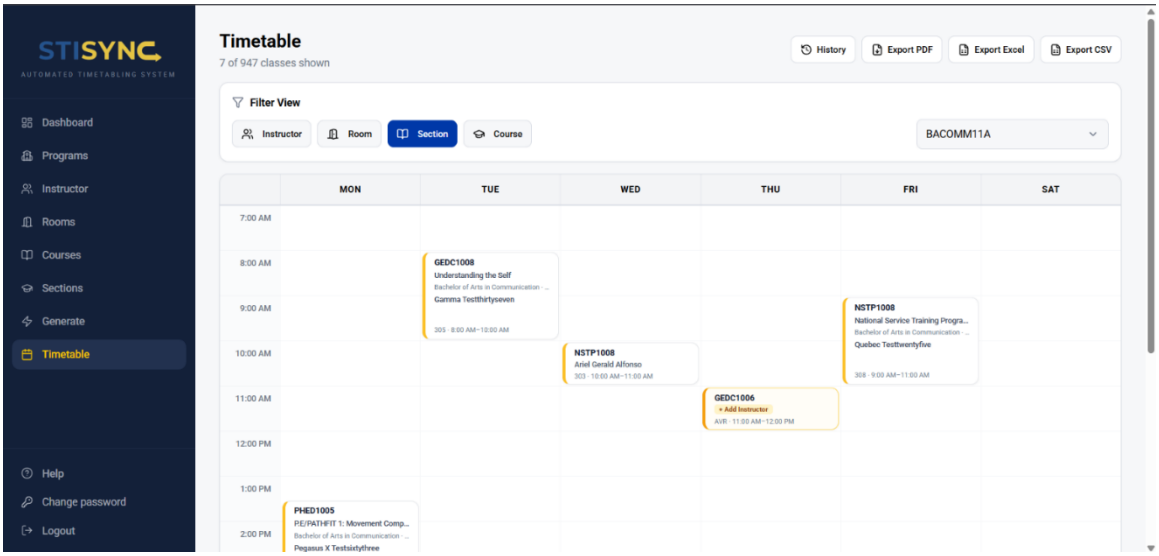

10. Timetable

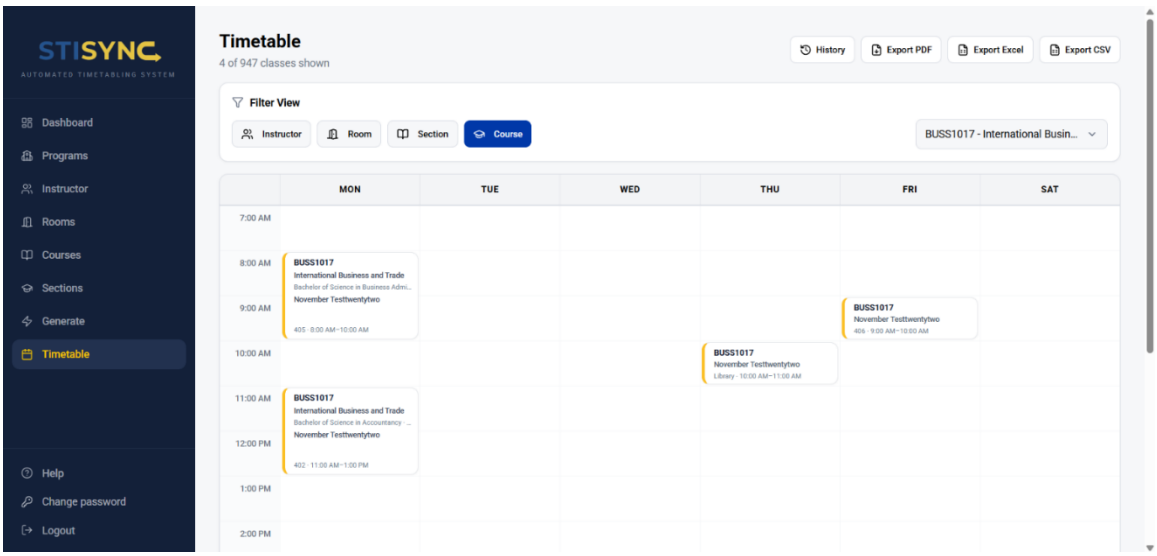

The weekly calendar of the active semester.

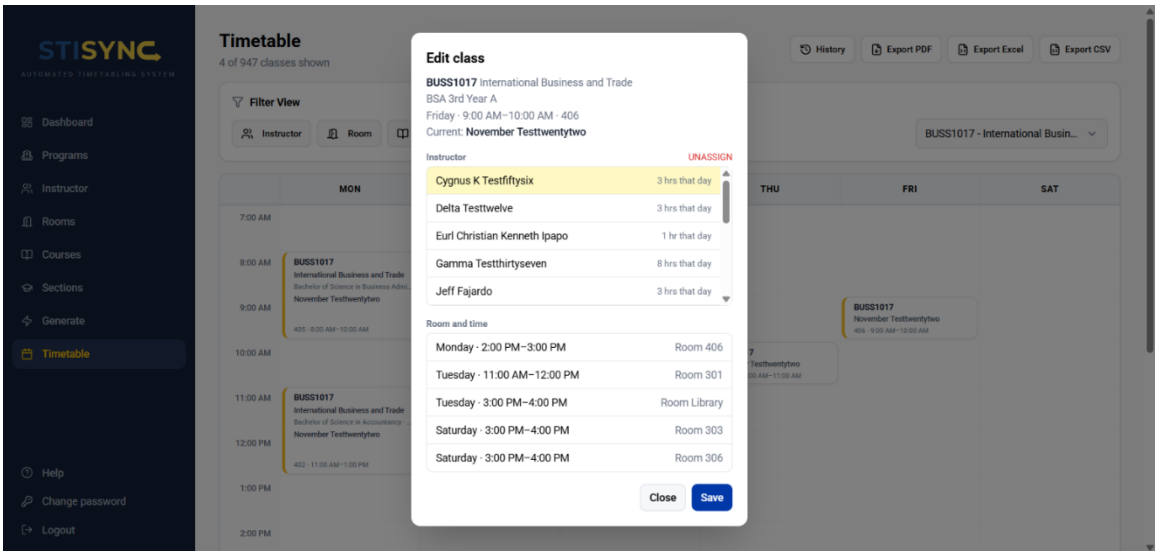

- **Filter view:** choose Professor, Room, Section or Program, then pick one.
- **Move a class:** click a class. A side panel lists vacant slots by day (only conflict-free slots that respect professor hour limits). Pick one; a confirmation message appears with a **View** button.
- **Assign an instructor:** classes generated without a professor show "Unassigned". Click the class, choose an instructor; the app checks availability, conflicts and the 9-hour warning.
- **Export:** download the timetable as PDF or Excel/CSV.
